New Fullpower FMD-709HX heavy duty seven head moulder and Fullpower SOC-100 automatic fault docker delivered to Hurford Wholesale this week. Looking forward to getting them up and running with the rest of the Fullpower machines on site. A big thanks to the two Luke's, Luke Simmons & Luke Feltham and the men from the Crane Hotline for a smooth installation. We would also like to take this opportunity to welcome Luke Feltham to the team here at ATS. Luke will be taking over from Luke Simmons as field service technician as the latter makes his transition to an internal sales/storeman role
