Avancer 2901 Timber Measurer

This unit is designed for measuring timber while being cut to length or processed. Sturdy construction counter with a 10mm shaft and a 1/3m Knurled Aluminum Measuring wheel make it suitable for heavy duty applications. A new feature is the brake unit which stops the wheel from turning once the wood has passed through the counting process.

Features

- NOW Fitted with Brake
- Measures in Meters and decimeters
- Top going or top coming models
- Spring loaded Counter Bracket
- Sturdy L bracket for fitting to worktop
- Front Viewing or top viewing models

\$520.00 + GST
